Address Input Tips

The US Postal Services adheres to standard address formats which Chicago Booth uses to verify your domestic address information. Please visit the zip code look-up provided by the US Postal Service at https://tools.usps.com/go/ZipLookupAction_input (underscore between Action and input) if you are unsure how to list your local address.

When you enter an address into the zip code look up window, you may get a list of possible versions of the address. Please select the first option on the list. Addresses must contain the **ONLY** the following information:

- House or building number (e.g. 5512, 630, 1414)
- Direction indicator (S for South, N for North, E for East, and W for West)
- Number of name of street (e.g. 59th, WELLS, MICHIGAN)
- Type of street (ST for Street, AVE for Avenue, DR for Drive, BLVD for Boulevard)
- Apartment or room number (e.g. APT 3B, APT 1142, RM 513)
- City (e.g. CHICAGO, EVANSTON, HAMMOND)
- State (IL for Illinois, IN for Indiana)
- Zip code (e.g. 60637)
- DO NOT add building or dormitory names even if it would appear to clarify your location.
